

"Join in! Integration through commitment"

is a joint project of the Munich volunteer agencies. We have developed a lesson in which we inform refugees and other migrants, in integration courses, vividly about civic engagement. We motivate the involvement in volunteer work and support the search for suitable job sites.

Involvement in the city society and the active participation in the immediate neighbourhood can be achieved by means of civic engagement in an easy and sustainable way. Immigrants can, as committed volunteers, make contacts, practice German, experience self-efficacy and learn relevant employment skills. We offer our lesson in cooperation with Munich educational institutions. By the use of various methods, we make aware the possibilities of commitment in Munich and show ways towards a voluntary activity.

Our Partners are:

Tatendrang München
Freiwilligen-Agentur
